

MITCHELL MILLER

Organic Growth / Growth Systems Lead

San Jose, CA | Remote-first | (626) 316-8682 | mitchelljmillerjr26@gmail.com | linkedin.com/in/mitchelljmillerjr

Organic growth leader who scales traffic and revenue through technical SEO, content systems, and full-funnel measurement. Grew organic sessions 2.65M to 4.9M+ and drove \$15.21M FY22 attributable revenue (88K appointments, 175K calls) across a 1,000+ location network; pairs paid and organic and builds AI-enabled growth systems that compound over time.

POSITIONING

Full-funnel organic growth and growth-systems operator: SEO, content, CRO, paid+organic, and automation.

Strong fit for Head of Growth, Organic Growth Lead, and Website Growth roles.

GROWTH

Organic Growth

Full-funnel SEO, content systems, topical authority, demand capture, paid+organic.

Conversion & Funnel

CRO, landing experience, attribution, cohort and funnel analysis.

Technical SEO

Crawl/render, JS indexation, migrations, Core Web Vitals, multi-CMS.

TOOLS

GA4, GSC, Adobe Analytics, Google Ads, Bing Ads, Profound, Semrush, Ahrefs, SEO Clarity, Screaming Frog, Surfer, Clearscope, Yext, Asana, Jira.

AI / DATA

Claude API, OpenAI, RAG, agent workflows, evals, Python, TypeScript, SQL, SQLite, BigQuery, statistical modeling, simulation, Cursor/Codex, Zapier, APIs.

EDUCATION

Michigan State

BA, Business Administration - Eli Broad College of Business.

EXPERIENCE

Clarity Digital - Senior AI Search Strategist / AI Systems Consultant

Built AI-enabled growth systems and AEO/GEO measurement for enterprise clients.

Nov 2023 - Present | Remote

- Designed and deployed AEO measurement infrastructure using Profound to track brand citation velocity and AI share-of-voice across ChatGPT, Perplexity, and Google AI Overviews.
- Built internal AI tooling - ClarityPulse, SearchForge, and ActionThread - replacing reporting, content intelligence, and call-workflow tools across agency operations.
- Engineered entity-first content systems for Knowledge Graph and AI retrieval inclusion: structured data, Wikidata validation, citation networks, topical authority, and internal linking.
- Led technical SEO, AEO, and GEO audit processes for enterprise accounts, translating AI-search visibility problems into client-ready roadmaps and implementation plans.

Stanford Health Care - Interim SEO/SEM Manager

Full-funnel paid and organic against patient-acquisition and conversion targets.

Mar 2024 - Aug 2024 | Palo Alto, CA

- Owned paid and organic search across high-value clinical service lines, including budget, measurement, keyword strategy, and stakeholder communication against patient-acquisition targets.
- Partnered with Content, UX, and clinical strategy teams to connect keyword strategy, patient-journey content, and conversion performance.
- Restructured campaign taxonomy and bidding logic around emerging AI-driven search behavior and high-intent generative-search query patterns.

Apple - Global SEO Program Manager, Americas

Owned organic demand strategy across a multi-billion-dollar Americas surface.

Aug 2022 - Jan 2024 | Cupertino, CA

- Owned organic search strategy for Apple's Americas product and services portfolio across a multi-billion-dollar revenue surface.
- Built business cases that secured engineering roadmap prioritization by combining competitive analysis, search demand, technical findings, and revenue projections.
- Presented evergreen holiday content and revenue opportunity models to 60+ stakeholder audiences and integrated early AEO/generative-search signals into long-term strategy.

CERTIFICATIONS

GA4, Google Ads Search, Google AI Essentials, AI for Marketing, Content Strategy, CAPM, PSM I, Product School PM, Google Project Management, Agile with Jira, UX Design.

PUBLISHED WORK

Dignity Health conditions and treatments library - enterprise healthcare content architecture.

CommonSpirit services and specialties library - scalable service-line discovery surface.

SELECTED WINS

Organic sessions 2.65M to 4.9M+ (+40% / +32% YoY)

\$15.21M FY22 attributable revenue

88K appointments and 175K calls/directions

Vet Advocates signups 2-3 to 25-50/mo

20+ migrations with conversion recovery

38+ country sites / 138 hreflang variants

WORKING STYLE

Growth operator: find the constraint with analytics, run full-funnel experiments, compound organic and paid, and systematize wins so they scale without re-work.

EXPERIENCE CONTINUED

CommonSpirit Health - SEO & Web Analytics Product Manager

Grew organic sessions 2.65M to 4.9M+ and drove \$15.21M FY22 attributable revenue.

Sept 2018 - Aug 2022 | Remote

- Scaled organic sessions from 2.65M to 4.9M+ across tenure, including FY19 +40% YoY and FY20 +32% YoY growth.
- Owned roadmap, requirements, stakeholder alignment, and measurement for a 20+ market healthcare network; FY22 output included \$15.21M attributable revenue, 88K appointments, and 175K calls/directions.
- Defined requirements and led delivery of 1,000+ Yext entity pages with parent/child architecture and dynamic CMS templates, syndicating structured data across Google, Apple Maps, Siri, and Alexa.
- Led 20+ enterprise migrations with technical requirements, stakeholder coordination, post-launch audits, and conversion recovery; partnered with Data Science on attribution modeling.

Wpromote / DemandWave - SEO Campaign Manager

Full-lifecycle SEO and CRO growth programs across enterprise and mid-market.

Apr 2015 - Aug 2018 | San Francisco, CA

- Directed full-lifecycle SEO and growth programs across clients including Unilever, BeyondTrust, Dynapar, and Whoop; translated audits into engineering, content, and CRO workstreams.
- Conducted server-level audits across Apache, IIS, HTTP headers, PHP, and multi-CMS environments; built internal training curriculum that scaled technical methodology across the agency.

SELECTED AI + GROWTH BUILDS (SIDE PROJECTS)

Vet Advocates

- Built structured Facebook ad system that increased monthly signups from 2-3 to 25-50; codified the system and trained an outsourced VA for long-term operation.

Clear Kayak Adventures

- Built website, OTA listings, payments, SOPs, safety workflows, pre-arrival CRM education, staff handoffs, and automation supporting \$500-\$1,000/day per location before state permit moratorium.

DomainSignal

- Founder / solo build of an AI-driven domain authority and intelligence platform using statistical models, scoring algorithms, and AI-paired insight generation.

California UBI Simulator

- Built (AI-assisted) a live policy sandbox that models universal basic income across real U.S. Census microdata for all 39.5M Californians, computing distributional and fiscal impact in real time from adjustable payment parameters.
