

MITCHELL MILLER

Director of SEO, AEO/GEO & AI Search Systems

San Jose, CA | Remote-first | (626) 316-8682 | mitchelljmillerjr26@gmail.com | linkedin.com/in/mitchelljmillerjr

Senior search and AI-growth leader with 10+ years owning enterprise SEO, technical search, multi-location architecture, AEO/GEO measurement, and AI-search adaptation. Apple-scale program experience, UC Berkeley MIDS, \$15.21M FY22 attributable revenue as PM for a 1,000+ location healthcare network, and hands-on internal AI products across reporting, content intelligence, and transcript-to-execution workflows.

POSITIONING

Enterprise SEO leader with AEO/GEO measurement, technical search architecture, and AI-enabled growth systems.

Strong fit for SEO Director, AI Search, technical SEO, organic growth, website growth, and search/product hybrid roles.

CORE SEARCH

Technical SEO

Crawl/render, JS indexation, migrations, Core Web Vitals, HTTP headers, multi-CMS architecture.

AEO / GEO

Profound measurement, AI share-of-voice, citation velocity, prompt clusters, LLM citation optimization.

Entity Systems

Knowledge Graph, schema, Wikidata, Yext, internal linking, topical authority, citation networks.

TOOLS

GA4, GSC, Adobe Analytics, Google Ads, Bing Ads, Profound, Semrush, Ahrefs, SEO Clarity, Screaming Frog, Surfer, Clearscope, Yext, Asana, Jira.

AI / DATA

Claude API, OpenAI, RAG, agent workflows, evals, Python, TypeScript, SQL, BigQuery, Cursor/Codex, Zapier, APIs.

EDUCATION

UC Berkeley

Master of Information & Data Science - ML, NLP, statistics, SQL, data engineering, experiments.

Michigan State

BA, Business Administration - Eli Broad College of Business.

EXPERIENCE

Clarity Digital - Senior AI Search Strategist / AI Systems Consultant

Operationalized AEO/GEO measurement and internal AI products across enterprise client delivery.

Nov 2023 - Present | Remote

- Designed and deployed AEO measurement infrastructure using Profound to track brand citation velocity and AI share-of-voice across ChatGPT, Perplexity, and Google AI Overviews.
- Led technical SEO, AEO, and GEO audit processes for enterprise accounts, translating AI-search visibility problems into client-ready roadmaps and implementation plans.
- Built internal AI tooling - ClarityPulse, SearchForge, and ActionThread - replacing reporting, content intelligence, and call-workflow tools across agency operations.
- Engineered entity-first content systems for Knowledge Graph and AI retrieval inclusion: structured data, Wikidata validation, citation networks, topical authority, and internal linking.

Stanford Health Care - Interim SEO/SEM Manager

Full-funnel paid and organic search ownership in regulated academic healthcare.

Mar 2024 - Aug 2024 | Palo Alto, CA

- Owned paid and organic search across high-value clinical service lines, including budget, measurement, keyword strategy, and stakeholder communication against patient-acquisition targets.
- Restructured campaign taxonomy and bidding logic around emerging AI-driven search behavior and high-intent generative-search query patterns.
- Partnered with Content, UX, and clinical strategy teams to connect keyword strategy, patient-journey content, and conversion performance.

Apple - Global SEO Program Manager, Americas

Apple.com-scale organic roadmap influence across US, Canada, Mexico, and Brazil.

Aug 2022 - Jan 2024 | Cupertino, CA

- Owned organic search strategy for Apple's Americas product and services portfolio across a multi-billion-dollar revenue surface.
- Built business cases that secured engineering roadmap prioritization by combining competitive analysis, search demand, technical findings, and revenue projections.
- Identified and resolved JavaScript rendering and indexation gaps in Apple's proprietary JS framework; partnered directly with engineering and design teams on remediation.
- Presented evergreen holiday content and revenue opportunity models to 60+ stakeholder audiences and integrated early AEO/generative-search signals into long-term strategy.

CERTIFICATIONS

GA4, Google Ads Search, Google AI Essentials, AI for Marketing, Content Strategy, CAPM, PSM I, Product School PM, Google Project Management, Agile with Jira, UX Design.

PUBLISHED WORK

Dignity Health conditions and treatments library - enterprise healthcare content architecture.

CommonSpirit services and specialties library - scalable service-line discovery surface.

SELECTED WINS

\$15.21M FY22 attributable revenue

88K appointments and 175K calls/directions

1,000+ Yext entity pages

38+ country sites and 138 hreflang variants

20+ enterprise migrations

Three internal AI products shipped

WORKING STYLE

Data-driven product and growth operator: prioritize with analytics and statistical methods, align cross-functional stakeholders, translate findings into technical requirements, and build AI-enabled systems that improve delivery over time.

EXPERIENCE CONTINUED

CommonSpirit Health - SEO & Web Analytics Product Manager

\$15.21M attributable revenue, 88K appointments, 175K calls/directions, 1,000+ entity pages.

Sept 2018 - Aug 2022 | Remote

- Owned roadmap, requirements, stakeholder alignment, and measurement for a 20+ market healthcare network; FY22 output included \$15.21M attributable revenue, 88K appointments, and 175K calls/directions.
- Scaled organic sessions from 2.65M to 4.9M+ across tenure, including FY19 +40% YoY and FY20 +32% YoY growth.
- Defined requirements and led delivery of 1,000+ Yext entity pages with parent/child architecture and dynamic CMS templates, syndicating structured data across Google, Apple Maps, Siri, and Alexa.
- Led 20+ enterprise migrations with technical requirements, stakeholder coordination, post-launch audits, and conversion recovery; partnered with Data Science on attribution modeling.

Wpromote / DemandWave - SEO Campaign Manager

Enterprise and mid-market SEO across ecommerce, SaaS, and professional services.

Apr 2015 - Aug 2018 | San Francisco, CA

- Directed full-lifecycle SEO and growth programs across clients including Unilever, BeyondTrust, Dynapar, and Whoop; translated audits into engineering, content, and CRO workstreams.
- Conducted server-level audits across Apache, IIS, HTTP headers, PHP, and multi-CMS environments; built internal training curriculum that scaled technical methodology across the agency.

SELECTED AI + GROWTH BUILDS (SIDE PROJECTS)

DomainSignal

- Founder / solo build of an AI-driven domain authority and intelligence platform using statistical models, scoring algorithms, and AI-paired insight generation.

Date Night

- Couples-focused dating app prototype for people done swiping; product concept, positioning, and app workflow built around shared planning and relationship-first discovery.

Clear Kayak Adventures

- Built website, OTA listings, payments, SOPs, safety workflows, pre-arrival CRM education, staff handoffs, and automation supporting \$500-\$1,000/day per location before state permit moratorium.

Vet Advocates

- Built structured Facebook ad system that increased monthly signups from 2-3 to 25-50; codified the system and trained an outsourced VA for long-term operation.
